PROFESSIONAL TOURNAMENT GOLF TEES

WELCOME TO THE WORLD OF TWiNTEE

This hybrid golf tee is combining performance and first class marketing

The design and durability inspire professional golfers and amateurs alike: TWiNTEE provides eye-catcher of the flight partners, brings joy while playing and gives you a feeling of security when „teeing-off“ before each tee shot. Play well!

The product

A new era in golf technology and performance! The patented combination of wood and plastic combines the advantages of both materials for optimal tee performance. In addition to the higher durability, compared to ordinary golf tees, the following properties of the TWiNTEE will convince you:

- + traditional look with modern technology
- + high quality, biobased materials
- + longer lifetime compared to conventional golf tees
- + three different lengths
- + Head brandable with logo, text or photo

**Available in different sizes and colours.
On request, various special colors, as well
as custom-made products are feasible.**

+ brandable with LOGO or image by UV printing technology

As is already customary with golf balls, there is also the option of doing this in the same quality with the head of our golf tee in same quality and look. TWiNTEE can be customized and personalized regarding your wishes and imagination. Your logo or image simply should exist in a high quality print format (JPEG, EPS or AI). All official colour codes, such as PANTONE® are supported. This branding can also be continued in packaging, to fulfill an ideal company gift for example. This branding can also be applied to the packaging, making our product an ideal corporate gift, among other things. How would you design your TWiNTEE?

+ TWiNTEE Special Edition via EDELRASTER

On request we can have your e.g. website address engraved into the side of the shaft of TWiNTEE via Edelraster, a company located close to us in Weißkirchen. This personalized labeling will last the whole product lifetime and can be clearly seen and felt. There is no abrasion, the engraving is very durable and gives the unique golf tee a particularly nature-conscious, exclusive look.

+ TWiNTEE Colour

It's also possible to produce our TWiNTEE in a lot of different colours. Choose your favourite one and let us know, we will try to realize your wishes and produce the perfect merchandising product for you. For the TWiNTEE Colour Edition we do branding in black, white, grey or golden colour on top - if you are interested or have got questions, feel welcome to get in touch with us!

TWINTEE CUSTOMIZER

High quality and durable printing
#twintee

The digital printing process is one of the most modern and high-quality printing methods currently available on the market. We have perfected this technique for golf tee printing and processed it for the most detailed resolution. The ECO UV ink does not dry out in ambient air, but is cured directly after application to the surface of the tee by use of a UV lamp.

This method offers the most realistic color quality for logos (Pantone, CMYK or other colour systems), which is especially important for customers who want to share their corporate identity. The durability is very stable, the resolution and the print sharpness are even more accurate than in all other printing processes. It meets the highest requirements. With this method, we can print your logo or photo in best quality on your TWiNTEE.

PRINT QUALITY

To achieve the best print quality, your file (jpeg or png) should meet the minimum criteria of:

600 x 600 px, 300 DPI or alternatively use a .svg or .ai

By uploading your files you confirm to have the rights to use them.

FONTSIZE

Font sizes that are smaller than the default size set in the Customizer can be printed, but are difficult to read on the tee. We recommend to use less letters in one line, but those once in a bigger size to match eyes.

PRICING

The prices listed in the Customizer already include the printing and packaging costs. You can choose from the following lengths:

DESIGN YOUR PERSONAL GOLFTEE

Easy and quick at www.twintee.at/customizer

There are things you have to do by your own, if you want to get the best out of them: Design your own golf tee, for example! Only if you do that by yourself, you can get a product that suits you perfectly and makes you feel good – every day, again and again on every tee shot.

You can combine the following PRINTING options:

TEXT

With our Customizer you can simply get your favorite text printed on your personal TWiNTEE. If it's your name or a fancy slogan ... we offer no limits, it's all about your phantasy.

Furthermore you can combine your text with any kind of photo.

PHOTO

Have you ever thought about your golf tee with a photo of a special memory or a special golf shot? With TWiNTEE Customizer this is easy to make! Just upload a image, set the position and you will receive your personalised golf tee immediately. You can also combine it with any kind of text.

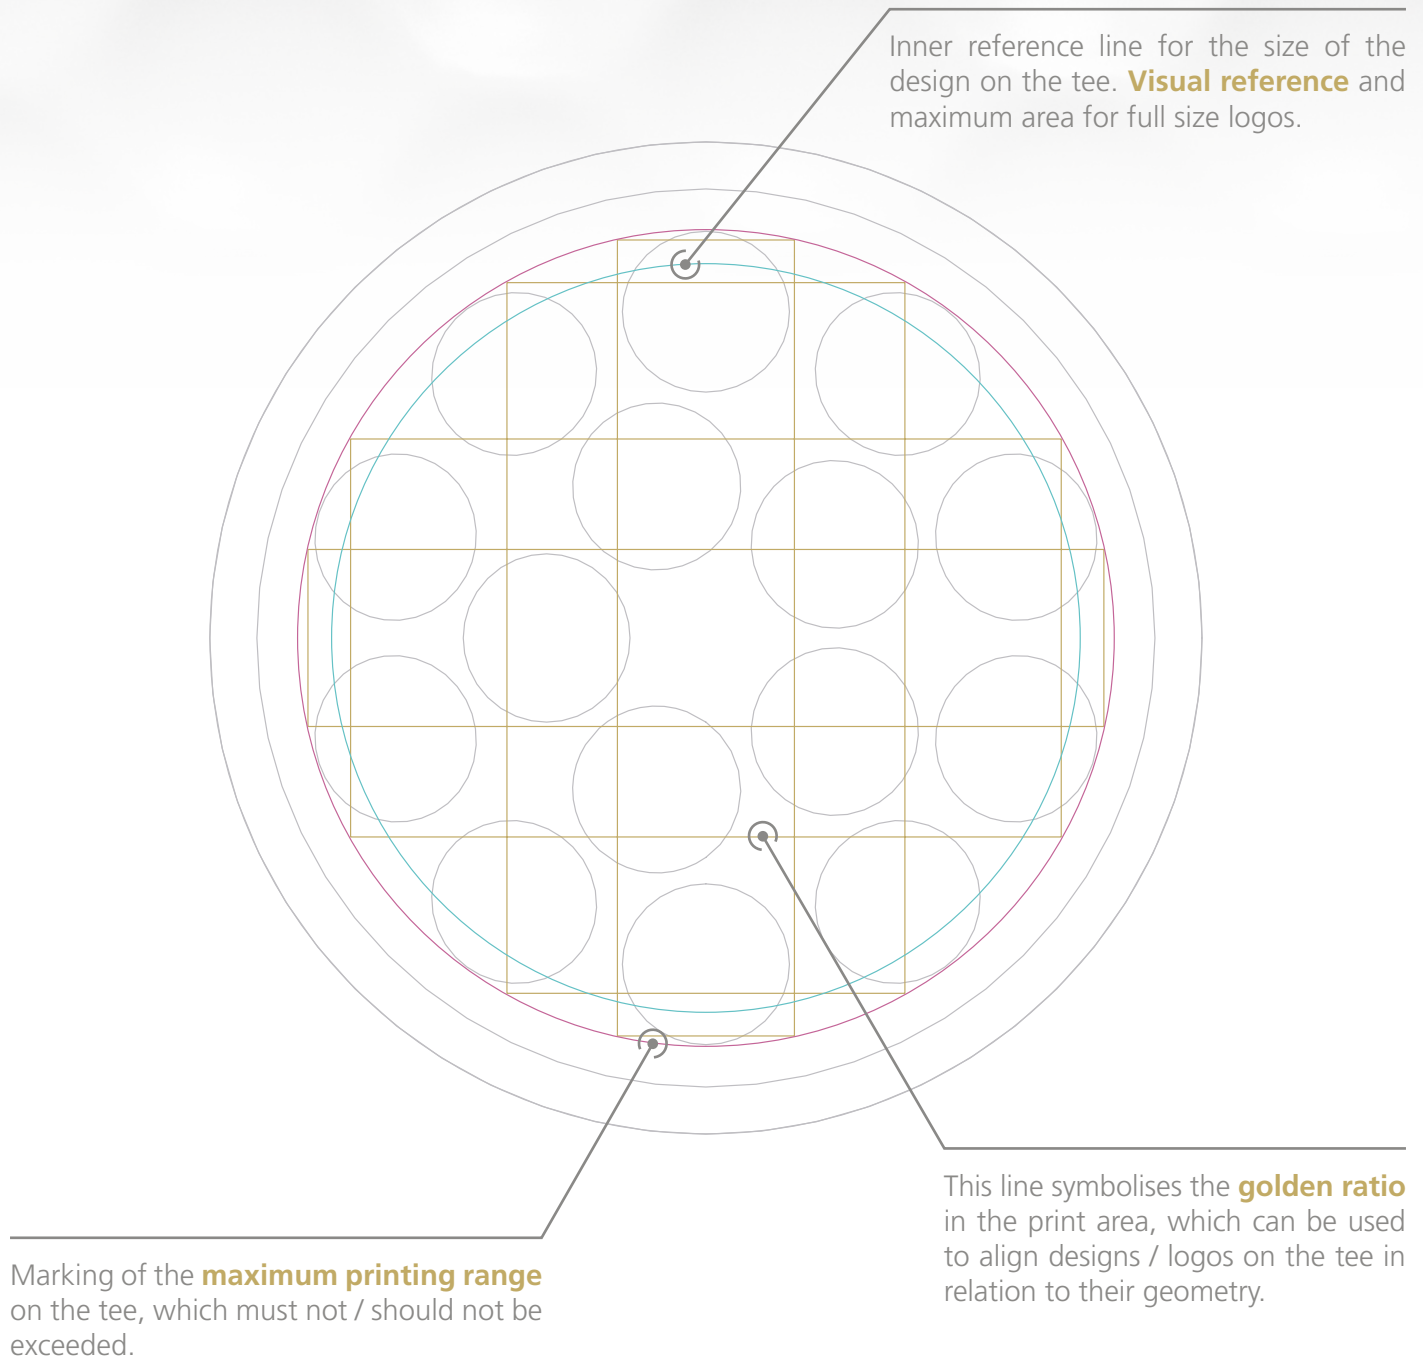

LOGO

You are the owner of a company or promoter of a golf tournament and want to present your logo on a golftee? No problem! With our customizer you can simply upload your logo in our system and create your personal give-away that will be remembered such as your company!

DESIGN GUIDELINES FOR THE TEE HEAD ...

... in accordance to an ideal visual appearance of your desired logo tee and the corresponding packaging.

Main print area for important content.

When printing to the edge of the paper, you need a **bleed** of 1-2 mm over the edge of the printed product.

Represents the **cutting edge** of the insert which optimally matches to the packaging.

PACKAGING

ORGANIC PILLOW BOX

Sustainable, innovative, all-round designable ...

Our latest packaging variant is visually based on the „CLEARBOX“ product, but is made of cardboard for all-round design. In this way, your corporate identity can be fully completed in the packaging, starting from the TWiNTEE product. The cushion boxes are also available in sizes identical to the shapes of the CLEARBOXES. They are made of sustainable uncoated cardboard and are delivered ready-packed. For economic reasons we recommend quantities of 500 units or more.

When printing to the edge of the paper, you need a **bleed of 1-2 mm** over the edge of the printed product.

REFINEMENT OF WOOD, ACRYLIC AND MORE

EDELRASTER: CNC/LASER/UV-printing service provider in the Murtal region

The refinement of wood, acrylic and much more is the core competence of the small business in Weißkirchen. Uniformity, regularity and continuous quality are guaranteed for each order. Together with the company EDELRASTER, TWiNTEE found one more way to make our wooden golf tees more unique: with the help of a CO₂ laser the shaft of TWiNTEE is now engraved with your desired lettering (eg: your homepage URL) and given a personal touch.

The engraving can be clearly felt and is as durable as your tee. There is no abrasion, the engraving is very resistant and gives an already unique golf tee an exclusive look.

Competencies of EDELRASTER

- Production of high-quality wooden trophies and medals
- Extensive personal advice on material and feasibility
- Extensive know-how in the field of carpentry and advertising technology

A HEART FOR TWINTEE

Collect donations through „Golfing with HEART“ and TWiNTEE

The annual sale of golf products by HCP GmbH is also characterized by a charitable story.

It is not only our aim to offer quality products to our customers and partners, but also to provide financial support for the needy, often helpless fellow human beings and to enable a better future. In 2015, this idea was created with the „I love TWINTE logo“ in order to be active in this direction in connection with non -

profit institutions such as **„golfing with the heart“**. Through the online sale of the Golftees with the „I love TWINTE logo“, we want to collect an illustrative sum, which is made available for further use to charity organisations and is only available to the needy persons.

The management of HCP0 GmbH will double the net proceeds at the end of the year. Please help, give and play TWiNTEE ...
